

### **HIGHLIGHTS OF MAPFRE | FLORIDA ARTISAN CONTRACTOR PROGRAM**

The Artisans and Contractors program is intended for small contractors with **annual Gross Receipts up to \$500,000 and payroll up to \$300,000**. The category of artisan contractors includes many occupations that involve skilled work with tools at the customer's premises. Plumbers, carpenters, electricians, paperhangers, air conditioner repairmen, appliance installers, and landscapers, are some of them.

**The program is aimed primarily towards contractors who work directly for property owners. It can also be used with contractors who sign "incidental contracts." However, contractors who are required to provide other contractors with Additional Insured Status are not eligible.**

Coverage is provided through a CPP policy, and a minimum amount of Personal Property coverage is required. Contractors Equipment and Installation coverages are optional. In support of this program, we are providing a Contractor's Rater so that you can quote eligible applicants.
